## Career Overview

Frontend developer with a focus on React, modern JavaScript, and accessible, responsive UI. Comfortable with Firebase authentication, REST APIs, and component-driven architectures using Tailwind CSS. Experienced with Git workflows and building real-world features like secure auth, role-based routing, and interactive animations. Strong foundation in DOM, version control, and continuous learning.

## Skills

<b>Frontend</b>	HTML5, CSS3, Tailwind CSS, Responsive Design, Accessibility (a11y)
<b>JavaScript</b>	ES6+, React, React Router, Context API, Axios, Fetch API, Framer Motion, Lottie
<b>Auth &amp; Data</b>	Firebase Authentication, JWT (concepts), REST APIs
<b>Backend</b>	Node.js, Express, MongoDB (CRUD, indexes basics), Mongoose (basics)
<b>Tools</b>	Git, GitHub, VS Code, npm, Postman
<b>Other</b>	WordPress, Canva, MS Word, Excel, PowerPoint
<b>Soft</b>	Communication, Time Management, Team Collaboration

## Experience

### Sep 2024 – Present **Freelance Web Developer**

- Developed responsive and interactive websites using React, Tailwind CSS, and plain JavaScript.
- Customized WordPress themes and plugins to meet client requirements.
- Integrated REST APIs for dynamic content and handled front-end performance optimization.

## Projects

### 2025 **Basic JavaScript Exercises**, *GitHub*

A collection of JavaScript exercises including array manipulation, conditionals, loops, and functions—ideal for practicing core JS logic. [:contentReference\[oaicite:0\]index=0](#)

### 2025 **The Career Mission 2025 — Static Web Page**, *GitHub*

A static HTML/CSS web page project, likely for personal branding or career objectives layout. [:contentReference\[oaicite:1\]index=1](#)

### 2025 **Job Portal (Client)**, *GitHub*

React + Vite front-end scaffold—clean setup for building a client-side job portal app. [:contentReference\[oaicite:2\]index=2](#)

### 2025 **Tea House Landing (Tailwind CSS)**, *GitHub*

A landing/homepage styled with Tailwind CSS—responsive HTML layout with configuration and image assets. [:contentReference\[oaicite:4\]index=4](#)

### 2024–2025 **DOM Module Summary**, *GitHub*

Mini-project demonstrating DOM manipulation with vanilla JS—interactive UI patterns via HTML, JS, CSS. [:contentReference\[oaicite:5\]index=5](#)

### 2025 **Node with MySQL**, *GitHub*

Node.js back-end integrating MySQL—setup includes index.js server logic with package management. [:contentReference\[oaicite:6\]index=6](#)

### 2024–2025 **JavaScript Basics — Part 1**, *GitHub*

Fundamental JS practice scripts covering loops, functions, conditionals, type parsing, switch cases. [:contentReference\[oaicite:7\]index=7](#)

- 2025 **Grid Layout Practice**, *GitHub*  
HTML/CSS hands-on project exploring CSS grid layouts with visual examples and styling. :contentReference[oaicite:8]index=8
- 2025 **Node.js Part 1**, *GitHub*  
Basic Node.js script setup including request-response modeling—entry-level server-side logic. :contentReference[oaicite:9]index=9
- 2025 **CSS Box Model Demonstration**, *GitHub*  
Illustrative HTML/CSS project visualizing CSS box model concepts—margins, padding, borders. :contentReference[oaicite:10]index=10
- 2025 **API Project — JS Fetch Sample**, *GitHub*  
Simple JavaScript project likely demonstrating data fetching with APIs (includes HTML + JS files). :contentReference[oaicite:11]index=11
- 2025 **Explore React Core Concepts**, *GitHub*  
React + Vite boilerplate intended as a foundation for learning React core—structured src setup. :contentReference[oaicite:12]index=12
- 2025 **Grid Images Gallery**, *GitHub*  
HTML/CSS based image gallery arranged with grid system—styling and layout practice. :contentReference[oaicite:13]index=13
- 2025 **G3 Architects Layout (HTML/CSS)**, *GitHub*  
Static architectural-themed layout built with HTML and CSS—ideal for showcasing layout and imagery. :contentReference[oaicite:14]index=14
- 2025 **React World Tour Starter**, *GitHub*  
Basic React + Vite template for a world-tour themed app—foundation for interactive/reactive UI development. :contentReference[oaicite:15]index=15

---

## Education

- 2022 – Present **B.A. (Honours), Bangla (3rd Year)**, *National University*, Dhaka, Bangladesh  
Relevant highlights: Academic writing & research skills; communication; literature analysis. Parallel track in Web Development (React, JavaScript, APIs).

---

## Certifications & Training

- 2024–2025 Web Development Track — HTML, CSS, Tailwind, JavaScript (ES6+), DOM, APIs, React, Git/GitHub

---

## Selected Coursework

- Frontend HTML/CSS/Tailwind, Responsive Design, React, Routing, State Management  
Core JavaScript ES6+, DOM, Fetch/Axios, Async, JSON, REST APIs  
CS ,  
Version Control Systems (local/centralized/distributed), Git internals

---

## Achievements

- Speaking Public speaking & presentation (community activities); organized content with slides (PowerPoint/Canva).
- Hack/Build Built an auth-enabled job portal prototype within a module timeline and iterated from user feedback.
